5 The conditions under which the Scholarship was originally given to him do not seem to be fulfilled, as he has not taken a Sanitary degree yet. According to these conditions he should have taken a diploma in public health, after the end of the scholarship already awarded. He now applies for further help for taking the B.Sc (Public Health) or D.P.H degree. It may perhaps be ascertained from him why he has not taken a San.y degree already in accordance with the conditions of the original Schp.

8 From the previous papers it is seen that the applicant was given a scholarship for 2 years in 1909 and he should have finished his course and taken his medical degree by July 1911- (Vide letter dated 9-5-1910 from the Dean of the University of Edinburgh in Edn File No 491 - B July 1910) In his present letter dated 20th January 1914 the applicant says he has "just now completed' his medical studies taking the M B Ch B degree- that is fully 2½ years after the time he was expected to do so ~~[illegible]~~ at the time the scholarship was enhanced to £ 200/-

9 There are no reports to show how he spent these 2½ years or what progress he made Before granting the present application it appears to me necessary to find out what kind of student he was at the Medical College at Edinburgh

2 As regards the anomalous position of the Educational Ad-

viser

Adviser regarding the scholars of the Mysore State I am of opinion that it is desirable that the Educational Adviser should exercise sufficient control over our students, especially as we seek information from him frequently regarding them and it is therefore necessary that he should keep himself in touch with them, and watch their progress I ~~xxxxxx~~ beg therefore to propose that I may be authorized by Government to arrange with the Comptroller for the payment of the scholarships in Europe by Messrs Coutts & Co after scrutiny ~~or~~ and countersignature of ~~xxx~~ bills by the Educational Adviser

Letter dated 1st May 1914 from Mr T W Arnold Educational Adviser to Indian Students London to the Inspector General of Education in Mysore

---

I beg to acknowledge the receipt of your letter No 12470/1891 dated the 26th of March 1914 with reference to Mr B P Naidu's scholarship I have not seen very much of Mr Naidu during his period of residence in this country but I have consulted Dr J Miller of the University of Edinburgh who is now Local Adviser to Indian Students in that city Dr Miller tells me that Mr Naidu was highly thought of by his teachers among whom I may number myself He showed me the originals of a number of testimonials from men like Professor Harvey Littlejohn Sir Halliday Croom Professor Alexis Thomson and Dr Freeland Barbour Altogether Mr Naidu's record is a most excellent one At present Mr Naidu is studying for the Diploma of Public Health and for the degree of Master of Hygiene at the University of Liverpool where he hopes to obtain also the Diploma in Tropical Medicine From what Dr Miller tells me his teachers in Liverpool have formed a very high opinion of his qualities and

Dr Miller is quite convinced that the Mysore Government would be well advised in continuing Mr Naidu's scholarship

I understand that Mr Naidu has been rot a little anxious in regard to his application to the Government and the non-receipt of a definite reply has rather interfered with his studies If therefore the matter could be settled as early as possible I am sure it would be advisable

I have been intending for some little time to address you in regard to the Mysore Government scholars who are nominally under my control I feel that the present situation is not at all satisfactory The scholars receive their stipends direct from India and are under no obligation whatever to consult me or to ask my help except when it suits them to do so In several cases in order to furnish you with the reports which I have sent in the past I have been obliged to write to the student and ask him either to come and see me or to write and tell me how he had been progressing It is quite impossible for me to exercise any efficient control unless I have charge of their finances In the case of the scholars sent

by

by the Government of India their stipend is not remitted to them without a declaration from me that their progress and conduct have been satisfactory and I feel that some similar arrangement might well be adopted in the case of the Mysore scholars

I should be glad to hear your views on this matter as I feel that the present situation is hardly satisfactory
